### Accidentally Killed.

Gabriel Obernay, a prominent and well known citizen of the Hungarian colony on Little Black, in the northeast part of the county, met a sudden and untimely death at his own hands last Wednesday noon, when a rifle he carried, was accidentally discharged, while playing with some dogs.

The circumstances in the case as related to the DEMOCRAT by Coroner Dr. S. A. Proctor, who was called out to hold an inquest, are about as follows.

An old lady of the Hungarian colony had died, and several neighbors had gone to the Budapest cemetery to dig her grave, and Gabriel who had been out by there with his rifle, met them at the gate at noon and opened the gate for them while they drove in, and two dogs belonging to one of the men who had come to dig the grave began to bark at him, but the owner called them off and made them be still, where upon the deceased took hold of his rifle by the barrel and being near a grave that had been fenced began to poke at the dogs with the butt of the gun and in some manner the gun struck the fence, and was discharged, the bullet a 38-40 striking him in the center of the chest, and causing death almost instantly. The two men who had come to dig the grave were about ten feet away, and said as he fell he uttered an "oh" and when they reached him had apparently breathed his last.

The deceased had been a resident of this county about ten years, and was a man of a great deal of education, being able to speak several languages, and on that account was the interpreter of the settlement for several years, until his countrymen learned sufficient English to be able to transact their business. He also conducted a store and was postmaster at Budapest, named after the capital of their native country, Hungary, he also taking a prominent part in the political affairs of the community, being the republican leader of the neighborhood.

Mr. Obernay was 46 years old, and was born in Hungary, near Buda Peste, and recently received word of the death of his father, at an advanced age, in the old country, and was planning to go back to settle up the estate as soon as the war in Europe came to an end. He also has a brother in the Austrian-Hungarian army, who is an officer, with the troops at the front.

The deceased leaves a wife and four children, one daughter being married, and whose arrival for the funeral is being awaited, before the burial takes place.

### ST. LOUIS LIVE STOCK MARKET.

Special report to Ripley County Democrat National Stock Yards, Ill., Jan. 23, 1915

Good hogs again reached a top of \$7.50 today—the result of an active brisk market for all weights of good corn hogs, and a 10c advance in the market. There were 9500 hogs on sale with about 1000 direct to packers.

The bulk of the good hogs 150 lbs upwards sold at \$7.50 to \$7.75; pigs 120 to 140 lbs \$6.75 to \$7.40; lighter pigs \$5.50 to \$6.55 with rough hogs at \$5.75 to \$7.00.

Southwest hogs or any class from suspicious territory continue to sell uncertain. Buyers are wary of them and fight shy of these kinds as far as possible, unless guaranteed corn fed.

Due to excessive cattle receipts in the West so far this week, values have suffered as a result. Steers of all kinds are selling 25 to 40c lower than last week's close; butcher cattle 25 to 50c lower, but canners are selling at strong prices for the week.

The sheep and lamb trade was 15c lower all around today. Choice lambs quotable at a \$10.75 top; fat sheep at \$7.50 to \$7.85 with good to choice yearling wethers at \$8.50 to \$9.25.

Div. Supt. Phil Carrol and Mr. Kitchen out of the Passenger Department of the Iron Mountain at St. Louis, were in town Wednesday between trains on business.

### DAUGHTER OF EARL CURZON

After the war is over, there is very little doubt that the social register of Great Britain will be considerably altered, the younger generation coming into its own. Among the most popular members of this set of the nobility of England is Mary Irene, the heir presumptive to the barony of Ravensdale. She is the eldest daughter of the earl and the late Lady Curzon. She was born January 20, 1896. Her mother who died in 1906 was Mary Victoria Leiter, daughter of the late Levi Seligman Leiter of Chicago.

### SHIPS TO DEFY TORPEDOES

Our Future War Vessels Will Be Proof Against Them, Is Opinion of Experts.

Washington.—Future American battleships will be able to survive the explosion of a single torpedo against their hulls, regardless of where they are struck, in the opinion of navy experts. Experiments which have been in progress for more than a year have demonstrated that two or more torpedoes must find their mark before these ships can be sent to the bottom.

The two superdreadnaughts and two battle cruisers congress has been asked to authorize this year will be designed on this plan. Battleships 43 and 44 have added interior construction resulting from the study made of the question of torpedo defense since the outbreak of the European war, but later ships will have even increased provisions in this regard.

The experiments are continuing and officials expect further information on the subject to be developed. Details of the work are regarded as confidential, but it is known that some experts are hopeful that a type of construction will be evolved which will greatly reduce the effectiveness of either mines or torpedoes against heavy ships.
